As a nonprofit 501 C(3), non-religious, non-political organization, our goals are to further the careers of our members through networking opportunities, technical seminars, scholarships, and educational opportunities. Since its inception, the AAAEA-CA has relied heavily on sponsors like you to continue to hold the events that we do and provide our students with scholarships. Since 2010, the AAAEA-CA has awarded 89 scholarships totaling $77,650 to high school, undergraduate, and graduate students pursuing degrees in engineering, architecture, or information technology. The AAAEA-CA will be able to offer scholarships at both our May and November events, thanks to generous contributions from sponsors like you. Through your support, we can continue this legacy of excellence.
